Payment Terms

Multiple services through one pack:

The client can consume multiple products through one recharge subject to the paid setup fee.

Carry forward Balance:

Every credit comes with certain validity. If validity gets over, the client needs to buy any pack from the pricing table and unused credit will be carried forward till the next pack validity. This is applicable for Prepaid commercial / Production pack only.

Validity:

Every recharge amount paid by the client for availing the services shall be valid for a certain period of time as per the plan. In case the client has exhausted the validity of the recharge amount, the plan shall automatically be moved to the base plan, until the next recharge.

Billing:

Usage consumption will be shared by the first of every month for clients to reconcile. If no confirmation is provided within 7 days, the consumption will be deemed accurate and the invoice will be raised for the same.

Integration:

The API and SDK are easy to integrate. We provide all necessary online Tech support to help you integrate the API/SDK. For more information, please refer to the technical documentation.

Other Terms

1. Any cost to be borne at actuals
2. Tax as applicable
3. Invoice will be payable within 10 calendar days of raising the invoice
4. Delay in payment of invoice amount will attract a 24% interest per annum
